Marine Plant Systems was established in 1992 to support specialty marine equipment provided to the Royal Australian Navy.

Summary

Marine Plant Systems Pty Ltd capabilities include the sale, supply, service and after sales support of specialty marine

equipment to defence, commercial and offshore industries.

Description

Marine Plant Systems was established in 1992 to support specialty marine equipment provided to the Royal Australian Navy. We are an SME that has grown to support the shipbuilding and repair industries in Australia and New Zealand through the service and supply of high quality marine equipment systems: sewage treatment; potable water production and treatment; vacuum toilet systems; cathodic protection systems; ballast water treatment; oily

water separators; fuel and lube oil separators; oil discharge monitoring equipment; air compressors; inventory of hazardous materials. We offer pre-engineering and design support, equipment sales, service and after sales support. Our project management experience integrates with defence or offshore requirements. Our factory-trained marine engineers provide on site support to ship owners and shipyards inside and outside of Australia.

Associations

- > Australian Ship Repairers Group
- > IFAP
- > RINA

Products & Services

- > Sewage treatment plants
- > Vacuum toilet systems
- > Oily water separators
- > Fuel oil separators
- > Lube oil separators
- > Oil discharge monitoring equipment
- > Desalination-plants
- > Reverse osmosis systems
- > Potable water disinfection systems
- > Water filters
- > Water conditioning
- > Cathodic protection
- > Sea water pipe work anti-fouling
- > Impressed current cathodic protection
- > Water heating
- > Ballast water treatment
- > Air compressors
- > Solid waste management
- > Inventory of hazardous materials
- > Seating systems (including pilot/helm chairs)
- > Blucher Marine pipes and drains

Industries Served

- > Automotive
- > Clean Energy
- > Defence
- > Manufacturing
- > Mining
- > Oil, Gas & Energy
- > Professional Services
- > Rail
- > Retail, Trade and Other Services
- > Transport
- > Water

Facilities and Equipment

- > Showroom
- > Offices
- > Workshop

Other Accreditations

- > ISO 9001 per principal manufacturers

Major Clients

- > ADI
- > Apache Energy
- > ASC / ASC AWD
- > ASP Defence Support Services
- > ASP Ship Management
- > Austal Ships / Austal Philippines
- > Babcock (NZ)
- > BAE Systems / Tenix
- > Bhagwan Marine
- > Commonwealth of Australia, Department of Defence
- > DMS / Defence Maritime Services / Serco Defence
- > FORGACS
- > GO Offshore
- > KT Maritime Services
- > Mermaid Marine / MMA Offshore
- > New Zealand Defence Force
- > Rio Tinto Marine
- > SIEM
- > Solstad Offshore / Solstad Farstad / Farstad Shipping
- > Teekay Shipping
- > Thales Australia
- > Transdev / Harbour City Ferries / Sydney Ferries
- > Origin Energy
- > Quadrant Energy
- > Shell Australia Pty Ltd
- > Woodside Energy Limited

Previous Significant Projects

2018

Pacific Patrol Boat Replacement project (PPBR)
\$200,000

Client: Austal Ships

Supply of marine reverse osmosis watermakers and UV sterilisers including SDRL and ILS.

2014

RAN HMAS Sirius EMA
\$500,000

Client: ASP Ship Management

Continuous engineering support: upgrade and maintenance of fuel and lube oil purifiers.

2013

Australian Customs Cape Class Patrol Boat Program
\$2,000,000

Client: Austal Ships

Supply, commissioning and training for vacuum toilet system, reverse osmosis systems, push fit marine drain pipe work, potable water disinfection systems (ultra violet and silver ion) including SDRL and ILS.

2011

Woodside NR2 Platform
\$500,000

Client: Hyundai Heavy Industries

Supply furnishings for the permanent living quarters.

1999

RAN Collins Class Submarines
\$2,000,000

Client: ASC

Supply oil water separators and sea water pipe work anti-fouling system.

2018

Prelude
\$2,500,000

Client: Shell Australia Pty Ltd

Supervision of maintenance and service of galley & laundry equipment; oily water separators; oil discharge monitoring equipment; sewage treatment plants; vacuum toilet system; solid waste equipment.

2014

RAN Hydrographic Ships
\$250,000

Client: BAE Systems

Supply and commission replacement impressed current cathodic protection systems control units (incl. engineering change support).

2012

Rio Tinto Pilbara Tugs
\$1,000,000

Client: Rio Tinto Marine

Supply, supervise installation and commission impressed current anti-fouling systems onboard multiple tugs to provide box cooler anti-fouling. Supply and commission box cooler potential measuring and alarm system.

1999

RAN Armidale Class Patrol Boats
\$4,000,000

Client: Austal Ships

Supply and commissioning of marine sewage treatment plant and vacuum toilet system including SDRL and ILS. Supply and commissioning of fuel oil separators.

1999

RAN Mine Hunter Vessel
\$3,000,000

Client: ADI

Supply and commissioning of anti-magnetic, shock-proof marine sewage treatment units combined with a vacuum toilet system including SDRL and ILS.

1999

RAN Kanimbla Class Ship
\$1,000,000

Client: Royal Australian Navy

Supply and commissioning of marine sewage treatment units and sodium hypochlorite generators.

1999

Yola A Platform
\$500,000

Client: Fitzroy Engineering

Supply of the vacuum toilet systems for the Yola A platform.
