Lucky Strike welding Provides an end to end Planning, Fabrication, installation and completions service, whether it be an offshore Gas Platform or a below ground train station. We understand that effective communication is paramount to delivering Projects on time and incident free. Our recent clients include Melbourne Metro (CYP) Rio Tinto, Woodside, RIA and various Commercial developers.

We adhere to all requirements of ISO 9001 Quality Management Systems. We are a proud supporter of the Australian steel industry, so you know that every project we undertake, you are supporting Australia's Manufacturing arm. Our Fabrication facility is located within half an hour of Melbourne CBD, so if its fast turnarounds or emergency breakdowns, rest assured Lucky Strike is your go to team.

---
