The Grand Opening of a new or refurbished building is a complex operation, with the placing of orders to suppliers even world wide can be a daunting and overwhelming task.

Summary

ACTISAFE is Australia's leading industrial workstations and furniture supplier. We deliver complete furniture, fittings & equipment (FF&E) and operating supplies & equipment (OS&E) packages to the construction, defence, health, hospitality, mining and energy sectors.

And with clients like John Holland, Lend Lease, Defence and Rio Tinto, you can be confident that ACTISAFE will deliver a value-for-money solution, that's on time and with a quality that's built to last.

ACTISAFE is a pioneer in human-centred design and manufacturing of ergonomic workstations, and in the usability of industrial furniture. Best of all, we can tailor a package perfect for your size project - from individual pieces, right through to complete design, supply and install for large industrial projects. This takes the stress out of managing multiple contracts and saves times and money in the procurement process. Call today to talk to one of our expert project managers about your FF&E and OS&E needs.

Description

The Grand Opening of a new or refurbished building is a complex operation, with the placing of orders to suppliers even world wide can be a daunting and overwhelming task. To ensure that Furniture, Fittings & Equipment (FF&E) and Operating Supplies & Equipment (OS&E) are delivered and installed on time requires an expert team that is optimally coordinated

ACTIWORK has established a reputation for providing for providing an expert team for the seamless procurement and coordinated supply and installation solution.

ACTIWORK FF&E (Furniture, Fixtures & Equipment) Supply and Install is a complete solution tailored to suit all Architects, Designers, Specifiers, Builders and End-Users on all projects.

FF&E is generally the last of the tenders to be let on most projects, and can be very tedious to finalise due to the high number of suppliers that have to be organised and contracted to supply product specified.

ACTIWORK has revolutionised the FF&E tendering process by offering a complete supply and install package that covers all sections of the FF&E scope. From workshops, offices, bedrooms, bathrooms and hospital furniture, ACTIWORK is able to not only supply, but also install the

complete FF&E package. This not only saves time and the unwanted stress of coordinating numerous contractors, but our buying power keeps rates down at a competitive level - saving concern and providing financial benefit for your project.

Global Sourcing & Procurement Services

ACTIWORK has a full catalogue of manufacturers and suppliers of product ranging from office furniture to warehouse shelving and storage to kitchen/laundry to accommodation and dormitory set-ups. ACTIWORK is also a preferred Australian Defence supplier. We are able to cover every category in FF&E supply if we cant find it, our manufacturing team will make it for you. With our experienced in house estimators, we ensure that you get the advantage and financial benefit of avoiding unnecessary budget blowouts nearing the end of your project.

It has been proven over many projects that ACTIWORK not only able to saves time, but is also able to offer substantial financial advantages.

ACTIWORK is a firm believer in Australian made products with National logistic contracts covering the country,

However not all products and styles can be found here in Australia creating a need for Global sourcing. ACTIWORK has a wealth of experience with Global markets whether it be single items or large volumes of product Logistics management is in place world wide. ACTIWORK not only has outlets in eight countries but it has Global Manufacturing companys in 19 countries already

throughout the world, thus creating a seamless process of acquiring product samples and client orders. ACTIWORK offers the service of creating and planning your fitout, with years of experience in solution providing ACTIWORK will help plan ahead to avoid pitfalls, delays or simply re-leaving your frustration of trying to manage 100 suppliers and 1000s of products.
